our vision

we are the geriatric care specialist brand setup in 2016 with a vision to be the trusted 'out-of-hospital' care continuum partner to the elderly & their family.

We specialise in post surgery & post hospitalisation Rehabilitative care, Palliative care, Dementia care of the elderly & we also offer Respite care.

These services are provided both at our specialised care centers & at the comfort of the home of elders.

OUR CARE SERVICES

Transitional & Rehab Care

Weeks following a surgery & hospitalisation are very crucial. During this period, a structured rehab program enables Seniors to get back to their routine and avoid readmission. Our comprehensive rehab program, delivered at our specialised care centers & at home, are designed to achieve these goals.

Palliative Care & Hospice

Comfort care, pain management & counselling are vital to ensuring a good quality of life for the elderly requiring hospice and palliative care. Our experienced and empathic teams delivers superior hospice & palliative care at our care facilities & at home at optimal costs.

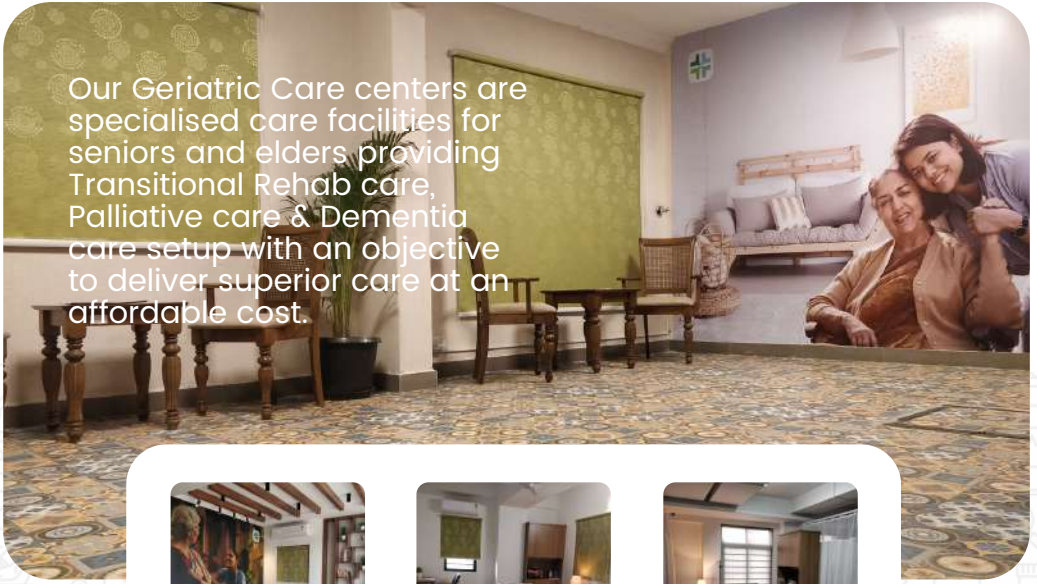

Dementia & Alzheimer's Care

Managing seniors with Dementia & Alzheimer's requires patience, empathy & a safe environment. We offer a comprehensive Dementia Care Program covering care at home and at our care facilities. We also offer day care activities for the neighbourhood seniors with dementia.

4,500+ clients | 4 care centers | 250+ beds
91,000+ nursing nights | 300+ staff | **One Goal**

our care centers

Our Geriatric Care centers are specialised care facilities for seniors and elders providing Transitional Rehab care, Palliative care & Dementia care setup with an objective to deliver superior care at an affordable cost.

You get all the Care Services under one roof.

We provide for accomodation that suits the need.

It all starts with a comprehensive care plan basis our unique 6 star assessment process which lays the foundation for determining the right services needed for your loved ones under our care. We provide variety of geriatric care services to aid the recovery process.
